### **General Discussion Items**

- Recruiter has asked about networking with our club to recruit to LANL
  - Our club does not have direct ties to the labs other than members that work at the labs. We have had networking events in the past but none recently. Most Aggies (particularly nuclear engineering) who are already in the local area already work at the labs. LANL would probably have better direct connections to the department at A&M
  - Rico will make a post on club facebook page

The Association of Former Students
